

An insect is a small animal with six legs, a body divided into three parts (head, thorax, and abdomen), and a hard outer shell called an exoskeleton. They also have two antennae for sensing and can have wings.

Common examples of insects include ants, bees, and butterflies

PAGE LAYOUT

In graphic design, page layout is the deliberate arrangement of text, images, and other visual elements on a page or screen to create a visually appealing, readable, and functional (useful) communication piece.

Tano Veron - graphic designer - passionate about typography (lettering design)
